

# The Intolerable State of Student Healthcare at Caltech

Administrators have ignored our demands, which are co-signed by over 40% of grads.

We demanded **no cuts to our health insurance** in a pandemic!

Do not increase **out-of-pocket costs** including:

deductible **+\$250**

out of pocket maximum **+\$500**

co-pays

co-insurance

Do not decrease the number of **co-pay waived mental health visits**.

Subsidize the entire cost of any resulting **premium increase** determined by the insurer.

Increase the **Dependent Healthcare Supplement** to offset the entire premium increase for students with dependents.
